Hendricks is severely criticised for his emphatic refusal to again take the second place on the ticket. The New Albany Ledger-Standard says, with his soft money ideas and antagonism to Tilden, he would fall 100,000 votes short of carrying New York. The Fort Wayne Sentinel says it is very doubtful if New York can be carried next year without lilden's co operation, and without New York the presidency cennot be secured. Several other papers speak in the same strain. It seems likely from the general tone of democratic sentiment that after one or two complimentary ballets for Hendricks, Indiana will throw the bulk of her strength in the democratic national convention for Tilden.

Before 12 30 all the streets leading to the public landing were black with spectators. At 9:23 General Grant and the special train left Louisville, and at 12:35 the booming cannon, shricking whistles, clanging bells and ringing cheers an nounced that they had arrived. The special train ran into the city to the public landing, where Gen. Grant and party alighted in front of the grand triumphal arch and gateway bearing the words: "The Gates of Our City Open to Gen. U. S. Grant," Here Hon. Benjamin Eggleston received the party, making a speech of welcome, to which General Grant appropriately responded. Gen. Grant's party then took its place

in the procession, which was formed with the right resting on Broadway. The procession moved on Broadway north to Fourth, west to Main, north to Fifth, west to Walnut, south to Fourth, west to Central avenue, north to Seventh, east to Elm, north to south side of Eighth, east to Vine, north to Fifteenth, west to Elm and south to Music Hall. These streets were crowded, and Grant's appearance at every point was the signal for great enthusiam and

cheering. Mrs. Grant was received by a comnittee of ladies, and went direct to the Gibson House.

At the Music Hall the decorations consist of the tasteful arrangement of palms and ferns in great variety, and a mammoth flag festooned across the east end with the word "Welcome" in large letters. He (Grant) was accompanied to the stage by the reception committee. The public were admitted on cards liberally distributed, ladies and their es corts having sole occupation of the balconies. Immediately after his entrance to the stage, Mayor Jacob addressed General Grant as follows:

The Secretary of War, in speaking on this subject, said that the action of Congress was not a precedent, but he would say, in the language of Gen. NEW YORK, Dec. 11.-A correspondent of the Tribune has had a talk with Gambetta on the policies and affairs in France. Among other things Gambetta says that a part of the educational fund next year will be spent in providing a national system of education for girls, and that the tax of ev ery sort on wine will be reduced in the interest of the working classes. The Frenchwomen, he declares to be 'marvelously-gifted creatures,' who only need emancipation to make them "sim ply peerless," and had wine, he intimates, has had its part in causing Communism and revolution. In relation to the damaged gloves returned, we have examined them all carefully, and while we exchange all of them, sending you five pairs in their stead, we return two pair of them, so that you may see it is not altogether the lault of the gloves. We think that four pair of those returned have been abused. by your customers very badly, and have, of course, torn, but this should not con-demn them. It is a fact beyond question ikat women abuse gloves shamefully, and while this is not your fault, it certainly is not ours, and is generally laid to the glove. This lady is the wife of the gentleman who endowed the Sibley College of Arts a gift reduced at \$80. College of Arts, a gift valued at \$30,000. Mr. Sibley is one of the wealthiest men in Western New York. His possessions are not made the subject of public comment as frequently as those of other millionaires, and, therefore, it is not generally known how vast they are. The bulk of the fortune was realized from the profits derived from constructing telegraph lines, in which he was largely interested with Ezra Cornell. Mr. Sibley is the owner of an immense quantity of real estate. During the summer he told that he had one corn-field in Illinois which contain-

"The population of the globe," says an English paper, "may be roughly estimated at 1,421,000, divided thus: Europe, 309,000,000; Asia, 824,000,000; Africa, 199,000,000; Oceanica, 4,000,000; America, 85,000,000. It has been calculated from the mortality tables of known countries that the annual number of deaths throughout the world is 35,693,350, or that, in other words, 99,-790 die each day.
